PROFESSIONAL SUMARY

Frontend Developer with nearly 2 years of experience in creating engaging and functional web interfaces. Currently a Systems Analyst at Capgemini, collaborating with multidisciplinary teams to develop and maintain innovative web solutions. Proficient in HTML, CSS, SASS, JavaScript, TypeScript, Angular, Figma, and REST APIs, with a track record of delivering high-quality results in 100% of projects. Experienced with CI/CD pipelines and continuously updating skills in Angular, TypeScript, and Automated Testing. Fluent in English, effectively communicating in multicultural environments.

EDUCATION

Associate's Degree in Internet Systems   *July/ 2024*
Descomplica College

WORK EXPERIENCE

Systems Analyst: Capgemini, Brazil   *December/2022 - Present*

- Prototyping and Development: Experience in creating and maintaining responsive and interactive web applications using HTML, CSS, SASS, Tailwind, JavaScript, TypeScript, Angular, and Figma.
- Component Library: Developed a custom component library, significantly increasing team productivity in Angular development, allowing for record-time deliveries.
- Application Migration: Led the migration of applications from Streamlit and HTML/CSS/JavaScript to the Angular and TypeScript environment, modernizing and optimizing the codebase.
- Version Control and CI/CD Management: Skilled in version control management and CI/CD pipelines using GitLab.
- Team Leadership: Frontend team leader, responsible for providing support, training, and task delegation to new team members, ensuring efficient integration and high team performance.
